Re: Building Remodel done by Border Construction

To Whom It May Concern,

We have worked with Border Construction over the last year while they completed a remodel of our veterinary hospital. Throughout the course of our multiple phase project, Border Construction employees displayed a high level of communication, experience and dedication. Border understands the importance of problem solving and thinking outside the box when it comes to remodeling existing buildings. They were able to complete their work in a timely manner while continuing to ensure our business was able to function each day.

Andy and the entire Border team were receptive to our ideas and prompt in addressing any questions or concerns that came up. Our weekly meetings, which included multiple Border employees as well as subcontractors, added to the high level of communication. Border Construction showed integrity, responsiveness, and flexibility during the entire project.

Border really cared about this project and ensured we were happy with every aspect of it. They guided us through the process, making it as seamless as possible. They worked with us to ensure the timeline met our needs and kept us up to date with any changes. It has been a pleasure to work with Border Construction and we would highly recommend them.

Sincerely,

Dr. Derine Winning
Owner of Valley Veterinary Hospital
